

## Week beginning 15.6.20

### Maths:

Lesson 1 Mobius strip investigation - either use power point attached, or pdf from the website. Do not print.

Lesson 2 Money - deal or no deal, again don't print. Work out if the slides represent good value or not, then complete the task.

Lesson 3 Tessellations, follow the instructions to make your own tessellation, then use it to create a pattern or some wrapping paper.

### English:

This week we will use the planning from last week to write up the first scene from Macbeth.

Follow the power point, of pdf from the website.

This will take some of you longer to complete than others, so when you have written it up in best I suggest that you complete some grammar work.

There is some attached, or make use of Emile or SATs Bootcamp.

### PSHE:

This week in PSHE, we would like you to continue with your wellbeing chart that we had provided previously.

### Geography:

LO: to be able to identify the different continents of the world.

<https://www.bbc.co.uk/bitesize/articles/z4dxt39>

All video links are attached in the link above. Watch the two short animations.

Activity 1: complete a quiz which you can do online.

Activity 2: Use the sheet - label the continents and oceans (your child can colour it in after)

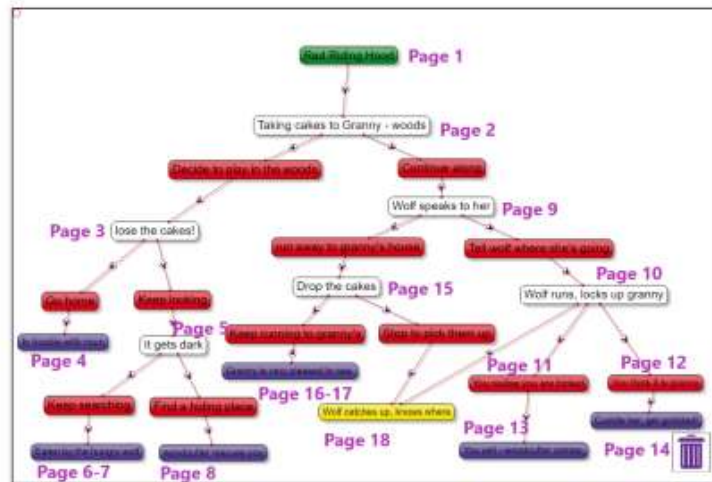

Activity 3: Play the geography explorer game.

### ICT:

LO: to make a story-based adventure.

In this lesson, you will use your plans to create a game using 2create - Story adventure mode. Show example of little red riding hood. Click on the overview button to show the entire story. Have a click on all the icons to familiarise yourself with the story mode.

13. As they create the pages, children will find it helpful to add the page numbers. Here is such a plan for the example program. You can see a bigger version of this in [Appendix 5](#)

Above is an example of a 2connect plan which you will need to create for your story. You should save your work regularly and test and debug the story as you go along.

#### Genius project:

Continue to research your information for your project and this of a way in which you will present this information (either Power point, document, poster etc.)

Example: Art - research the artist, collated the information, presented it and then did a painting link to that artist for a display.

#### Free time:

As school will be closed Friday afternoon for the deep clean, we thought that at home the children can have a bit of free time to do what they want.

**Music:** <https://www.bbc.co.uk/bitesize/articles/zkx3bdm>

LO: to understand what is meant by melody and pitch.

What are melody and pitch?

Melody is a tune and pitch is part of the music you sing along to.

Watch the video of melody and pitch.

Activity 1: What is your favourite song at the moment? Find that song and listen to it.

Can you write down or describe how it is making you feel?

Can you spot what is causing that feeling? Is it the words?

How does the singer perform?

Write down words of how the song is making you feel.
