

School Attendance

Did you know....

For this school year there are **189 school days**, leaving **177 non-school days** for family holidays and routine appointments.

Children have the best chance of success if their school attendance is between **95 to 100%**

90% of attendance means your child misses **1 day every 2 weeks** and this will add up to nearly **4 weeks over the year**.

At 90% attendance throughout Primary and Secondary school your child will be missing **1 whole year of school**.

Any school time lost will not be caught up.
