Championing Children's Potential

Brookside Primary School
Staff, Governor and Volunteer Acceptable Use Policy

School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion and promote creativity, promoting effective learning. They also bring opportunities for staff to be more creative and productive in their work.

This Acceptable Use Policy is intended to ensure:

- that staff and volunteers will be safe and responsible users of the internet and other digital technologies.
- that school ICT systems and users are protected from accidental or deliberate misuse.

The school will try to ensure that staff and volunteers will have good access to ICT to enhance their work and improve opportunities for learners and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to minimise the risk to my safety or to the safety and security of the ICT systems and other users. I will, where possible, educate the young people in my care in the safe use of ICT and embed e-safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of its ICT systems including email and other digital communications technologies.
- I understand that this agreement also applies to use of school ICT systems out of school (eg laptops, email, VLE etc).
- I understand that the school ICT systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the parameters of the policies and rules set down by the school.
- I will keep my usernames and passwords private and will not try to use anyone else's username and password.
- I will ensure that my password is sufficient to ensure security. This password should not be a single word and should contain a special character, such as a number or punctuation mark.
- I will immediately report any illegal, inappropriate or harmful material or incident, to the appropriate person in school.
- I will not transport data on a USB or external hard drive. When I have to share data on children or parents I will do so through the secure staff share.
- I will ensure that any data sent through emails will be anonymised so that data subjects cannot be identified.
- When transporting physical data (books, documents relating to children), I shall transport this securely and ensure that the data is not viewed by anyone except the intended user.
- I will ensure that my computer is locked and password protected when not in use (for example, if I leave the room).

I will be professional in my communications and actions when using school ICT systems:

- I will not access, copy, delete or otherwise alter any other user's files, without their permission.
- I will communicate with others in a professional manner.
- I will ensure that when I take or publish images of pupils or parents/colleagues, I will do so with their permission and in accordance with the school's policy. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (eg on the school website) it will not be possible to identify pupils by name, or other personal information.
- I will only use chat and social networking sites in school in accordance with school policy.
- I will only communicate with pupils and parents / carers using official school systems and in a professional manner. I will not share any personal information with a pupil (including personal phone numbers or email address). Nor will I request or respond to any personal information from a young person unless it is appropriate as part of my professional role.
- I will not engage in any on-line activity that may compromise my professional responsibilities or bring the school into disrepute, including discussing students or parents parents in chat programs (such as WhatsApp) or through my personal emails.

The school and the local authority have the responsibility to provide safe and secure access to technologies:

- When I use my personal hand held / external devices in school (PDAs / laptops / mobile phones / USB devices etc), I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that when connecting these devices to school ICT systems, they are protected by up to date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school ICT systems.
- I will not open any attachments to emails, unless the source is known and trusted, due to the risk of the attachment containing viruses or other harmful programmes.
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any material which is illegal or inappropriate or may cause harm or distress to others (eg child sexual abuse images, criminally racist material, adult pornography etc). I will not try to use any programmes or software that might allow me to bypass the filtering / security systems intended to prevent access to such materials.
- Unless I have permission, I will not try to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on school systems, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School Data Protection Policy. Where personal data is electronically transferred outside the secure school network, it must be encrypted.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work.
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of school:

- I understand that this Acceptable Use Policy applies not only to my work and use of school ICT equipment in school, but also applies to my use of school ICT systems and equipment out of school and my use of personal equipment in school or in situations related to my employment by the school.
- I understand that mobile phones must not be used to photograph any child or activity related to school. I understand that mobiles must be stored and must not be used in front of children or in the classroom during the working day.
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action and in the event of illegal activities, the involvement of the police.

I have read and understand the above and agree to use the school ICT systems both in and out of school and my own devices (in school and when carrying out communications related to the school) within these guidelines.
