

Lesson 4

Animal Sports Day
Nrich challenge

Animal Sports Day

One day five small animals in the garden decided to have a sports day.

They were a large, sleepy caterpillar, a busy little ladybug, a long-legged spider, a small, jumpy frog and a slow, slimy snail.

Animal Sports Day

They decided to have a swimming race, a running race, a high jump and a long jump.

Who do you think won each event?

Why do you think this?

- Think about
- size
 - shape
 - speed
 - skill
 - number of legs
 - wings

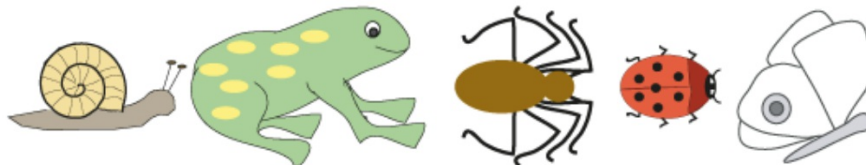

swimming race		Spider will win because...
running race		
high jump		
long jump		

Animal Sports Day

The next day four of the animals wanted another sports day, but the caterpillar had gone to sleep and would not wake up!

"When he wakes up, we'll have another sports day!" said the frog. The three others agreed.

Some days later the caterpillar did wake up. He crawled out of his sleeping bag. He looked quite different!

Animal Sports Day

Again they decided to have a swimming race, a running race, a high jump and a long jump.

**Who do you think won each event this time?
Has the caterpillar's change made any difference?**

Why do you think this?
